

Roadmap for the implementation of the Construction Products Regulation (CPR)

(15 May 2014)

The [Construction Products Regulation](#) (CPR) allows the Commission to adopt mandatory legal acts to implement or to complement the CPR, either in the form of implementing or delegated acts mentioned in Articles 26(3) and 60 of the CPR respectively¹.

In addition, the CPR mandates the Commission to report to the European Parliament (EP) and to the Council on different aspects of the Regulation.

The following table provides an overview on all tasks undertaken or planned to be undertaken by the Commission for the implementation of the CPR.

Task	Sub-tasks	Status	Estimated end date
Delegated acts (CPR Art. 60)			
Regulation on e-supply of the declaration of performance (DoP) (i.e. providing performance product information on a website)	<ul style="list-style-type: none"> Supporting study: assessing legal constraints in MS systems 	<ul style="list-style-type: none"> Study completed in 2013 	Completed February 2014
	<ul style="list-style-type: none"> Adoption of delegated act by the Commission; 	<ul style="list-style-type: none"> Regulation adopted 	
	<ul style="list-style-type: none"> acceptance of delegated act in EP and 	<ul style="list-style-type: none"> Regulation accepted in 	

¹ The process followed for the adoption and entry into force of the implementing and delegated acts varies slightly: while implementing acts are adopted by the Commission and published in the Official Journal of the EU (OJEU) for their entry into force after the positive vote of a committee composed of Member States representatives, delegated acts need to be scrutinized by the EU co-legislators (i.e. the European Parliament and the Council of the European Union) before they can be published in the OJEU. Further information on implementing and delegated acts is available at http://europa.eu/legislation_summaries/institutional_affairs/treaties/lisbon_treaty/ai0032_en.htm and http://ec.europa.eu/atwork/decision-making/index_en.htm.
