

RESULTS OF ASSESSMENT OF CANDIDATE HARMONISED STANDARDS

Article 17(5) of Regulation (EU) 305/2011

CEN has proposed to the EC services for citation in the OJEU the new ENs which are listed in the table below. They represent:

- 11 new references,
- 24 revised standards

The EC services have assessed the conformity of the harmonised standards with the relevant mandates as required by Art 17(5) of Regulation (EU) 305/2011, in order to undertake the citation of the next list of harmonised ENs in the OJEU. The results are presented in the table below.

The principles applied for the decision to cite or not the candidate harmonised standards were:

- compliance with the mandate,
- absence of new classes and thresholds different from those in the previous cited version of the same standard or previously existing harmonised standards of the same product family (e.g. the formaldehyde classes in wood products),
- absence of information on serious deficiencies,
- absence of regulatory queries,
- the provisions of Regulation EU 305/2011 take precedence over any conflicting provisions in the standards (e.g. references to the CPD, deficiencies in the CE marking example, wrong suggestions on the use of NPD option, etc.).

For those standards for which the EC services consider that the standard cannot yet be cited as harmonised standards in the OJEU (those marked in the table with **N**), the CEN TC is requested to deliver to the EC services the necessary clarifications and justifications in order to allow the EC services to reassess the standards under the light of the additional information.

The standards marked in the table with **Y** will be cited asap in the OJEU and NANDO will be updated accordingly.

Reference and title of the candidate harmonised standard	Previous hEN version	Can be cited?	Reasons for non citation
EN 845-1:2013 Specification for ancillary components for masonry - Part 1: Wall ties, tension straps, hangers and brackets	Replaces EN 845-1:2003+A1:2008 <i>Coexistence ended on 01.01.2010</i>	Y	
EN 845-2:2013 Specification for ancillary components for masonry - Part 2: Lintels	Replaces EN 845-2:2003 <i>Coexistence ended on 01.04.2006</i>	Y	
EN 845-3:2013 Specification for ancillary components for masonry - Part 3: Bed joint reinforcement of steel meshwork	Replaces EN 845-3:2003 <i>Coexistence ended on 01.01.2010</i>	Y	
EN 1304:2013 Clay roofing tiles and fittings - Product definitions and specifications	Replaces EN 1304:2005 <i>Coexistence ended on 01.02.2007</i>	N	<u>Classes of frost resistance</u> introduced in clause 4.4.3 Information in Annex C on which MS accept which class.
EN 1344:2013 Clay pavers - Requirements and test methods	Replaces EN 1344:2002 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 1504-5:2013 Products and systems for the protection and repair of concrete structures - Definitions, requirements, quality control and evaluation of conformity - Part 5: Concrete injection	Replaces EN 1504-5:2004 <i>Coexistence ended on 01.01.2009</i>	N	Table ZA.1.a includes <u>new threshold values</u> higher than the previous ones (may exclude products which could previously be CE marked). <u>Shrinkage</u> is now expressed with a different indicator introducing an <u>additional threshold</u> (may exclude products which could previously be CE marked).
EN 1790:2013 Road marking materials - Preformed road markings	None	N	Clause 4.1.2 contains <u>classification of luminance factor β to which the product performance must comply</u> . Clause 4.1.7 <u>contains classes on UV resistance</u> . Clause 6.2.1 obliges producer to test all product characteristics.
EN 12566-3:2005+A2:2013 Small wastewater treatment systems for up to 50 PT - Part 3: Packaged and/or site assembled domestic wastewater treatment plants	Replaces EN 12566-3:2005 <i>Coexistence ended on 01.11.2010</i>	Y	

Reference and title of the candidate harmonised standard	Previous hEN version	Can be cited?	Reasons for non citation
EN 12566-7:2013 Small wastewater treatment systems for up to 50 PT - Part 7: Prefabricated tertiary treatment units	None	Y	
EN 12602:2008+A1:2013 Prefabricated reinforced components of autoclaved aerated concrete	None	Y	
EN 13225: 2013 Precast concrete products - Linear structural elements	Replaces EN 13225:2004 <i>Coexistence ended on 01.09.2007</i>	Y	
EN 13361: 2013 Geosynthetic barriers - Characteristics required for use in the construction of reservoirs and dams	Replaces EN 13361:2004 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 13362: 2013 Geosynthetic barriers - Characteristics required for use in the construction of canals	Replaces EN 13362:2005 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 13491: 2013 Geosynthetic barriers - Characteristics required for use as a fluid barrier in the construction of tunnels and associated underground structures	Replaces EN 13491:2004 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 13492: 2013 Geosynthetic barriers - Characteristics required for use in the construction of liquid waste disposal sites, transfer stations or secondary containment	Replaces EN 13492:2004 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 13493: 2013 Geosynthetic barriers - Characteristics required for use in the construction of solid waste storage and disposal sites	Replaces EN 13493:2005 <i>Coexistence ended on 01.02.2007</i>	Y	

Reference and title of the candidate harmonised standard	Previous hEN version	Can be cited?	Reasons for non citation
<p>EN 13707:2013 Flexible sheets for waterproofing - Reinforced bitumen sheets for roof waterproofing - Definitions and characteristics</p>	<p>Replaces EN 13707:2004+ A2:2009 <i>Coexistence ended on 01.02.2007</i></p>	<p>N</p>	<p>The TC expected to justify why <u>they have decided to delete the ess. characteristic "External fire performance"</u> for these products, as this ess. characteristic is in the mandate and was included in the previous hEN version.</p> <p>At least one Member State (Finland) has confirmed to regulate on external fire performance of roofs for these products and this intended use.</p>
<p>EN 13808:2013 Bitumen and bituminous binders - Framework for specifying cationic bituminous emulsions</p>	<p>Replaces EN 13808:2005 <i>Coexistence ended on 01.01.2011</i></p>	<p>Y</p>	
<p>EN 14080:2013 Timber structures - Glued laminated timber and glued solid timber - Requirements</p>	<p>Replaces EN 14080:2005 <i>Coexistence ended on 01.12.2012</i></p>	<p>Y</p>	
<p>EN 14342:2013 Wood flooring and parquet - Characteristics, evaluation of conformity and marking</p>	<p>Replaces EN 14342:2005+ A1:2008 <i>Coexistence ended on 01.02.2007</i></p>	<p>Y</p>	
<p>EN 14471:2013 Chimneys - System chimneys with plastic flue liners - Requirements and test methods</p>	<p>Replaces EN 14471:2005 <i>Coexistence ended on 01.02.2007</i></p>	<p>N</p>	<p>Finland informed that TC 166 found serious mistakes in the standard which make it difficult for the manufacturers to use the hEN for the CE-marking. Therefore TC 166 is now preparing an Amendment A1 to correct the technical mistakes in the main body of the standard and also mistakes in Annex ZA</p>
<p>EN 14509:2013 Self-supporting double skin metal faced insulating panels - Factory made products - Specifications</p>	<p>Replaces EN 14509:2006 <i>Coexistence ended on 01.02.2007</i></p>	<p>Y</p>	
<p>EN 14783:2013 Fully supported metal sheet and strip for roofing, external cladding and internal lining - Product specification and requirements</p>	<p>Replaces EN 14783:2006 <i>Coexistence ended on 01.07.2008</i></p>	<p>Y</p>	

Reference and title of the candidate harmonised standard	Previous hEN version	Can be cited?	Reasons for non citation
EN 14915: 2013 Solid wood panelling and cladding - Characteristics, evaluation of conformity and marking	Replaces EN 14915:2006 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 15037-4:2010+A1: 2013 Precast concrete products - Beam-and-block floor systems - Part 4: Expanded polystyrene blocks	Replaces EN 15037-4:2010 <i>Coexistence ended on 01.11.2011</i>	Y	
EN 15037-5:2013 Precast concrete products - Beam-and-block floor systems - Part 5: Lightweight blocks for simple formwork	None	Y	
EN 15286:2013 Agglomerated stone - Slabs and tiles for wall finishes (internal and external)	None	Y	
EN 15322: 2013 Bitumen and bituminous binders - Framework for specifying cut-back and fluxed bituminous binders	Replaces EN 15322:2009 <i>Coexistence ended on 01.06.2011</i>	Y	
EN 15382: 2013 Geosynthetic barriers - Characteristics required for use in transportation infrastructure	Replaces EN 15382:2008 <i>Coexistence ended on 01.02.2007</i>	Y	
EN 15501:2013 Thermal insulation products for building equipment and industrial installations - Factory made expanded perlite (EP) and exfoliated vermiculite (EV) products - Specification	None	Y	
EN 15682-2:2013 Glass in building - Heat soaked thermally toughened alkaline earth silicate safety glass - Part 2: Evaluation of conformity/Product standard	None	Y	
EN 15683-2:2013 Glass in building - Thermally toughened soda lime silicate channel shaped safety glass - Part 2: Evaluation of conformity/Product standard	None	Y	

Reference and title of the candidate harmonised standard	Previous hEN version	Can be cited?	Reasons for non citation
<p>EN 16025-1:2013 Thermal and/or sound insulating products in building construction - Bound EPS ballastings - Part 1: Requirements for factory premixed EPS dry plaster</p>	None	Y	
<p>EN 16240:2013 Light transmitting flat solid polycarbonate (PC) sheets for internal and external use in roofs, walls and ceilings - Requirements and test methods</p>	None	Y	
<p>EN 16361:2013 Power operated pedestrian doors - Product standard, performance characteristics - Pedestrian doorsets, other than swing type, initially designed for installation with power operation without resistance to fire and smoke leakage characteristics</p>	None	N	<p>New classification on wind load resistance and air permeability different from those in EN 14351.</p> <p>Durability assessment limited to one ess. characteristic.</p>
